Sipeg PDAM

Created: April 2024

This project is a mobile application and admin dashboard for managing employee data at PDAM Tirta Sakti, built using Flutter for the mobile frontend and Laravel for the backend. The application features employee record management, attendance tracking with google maps API, and payroll processing.

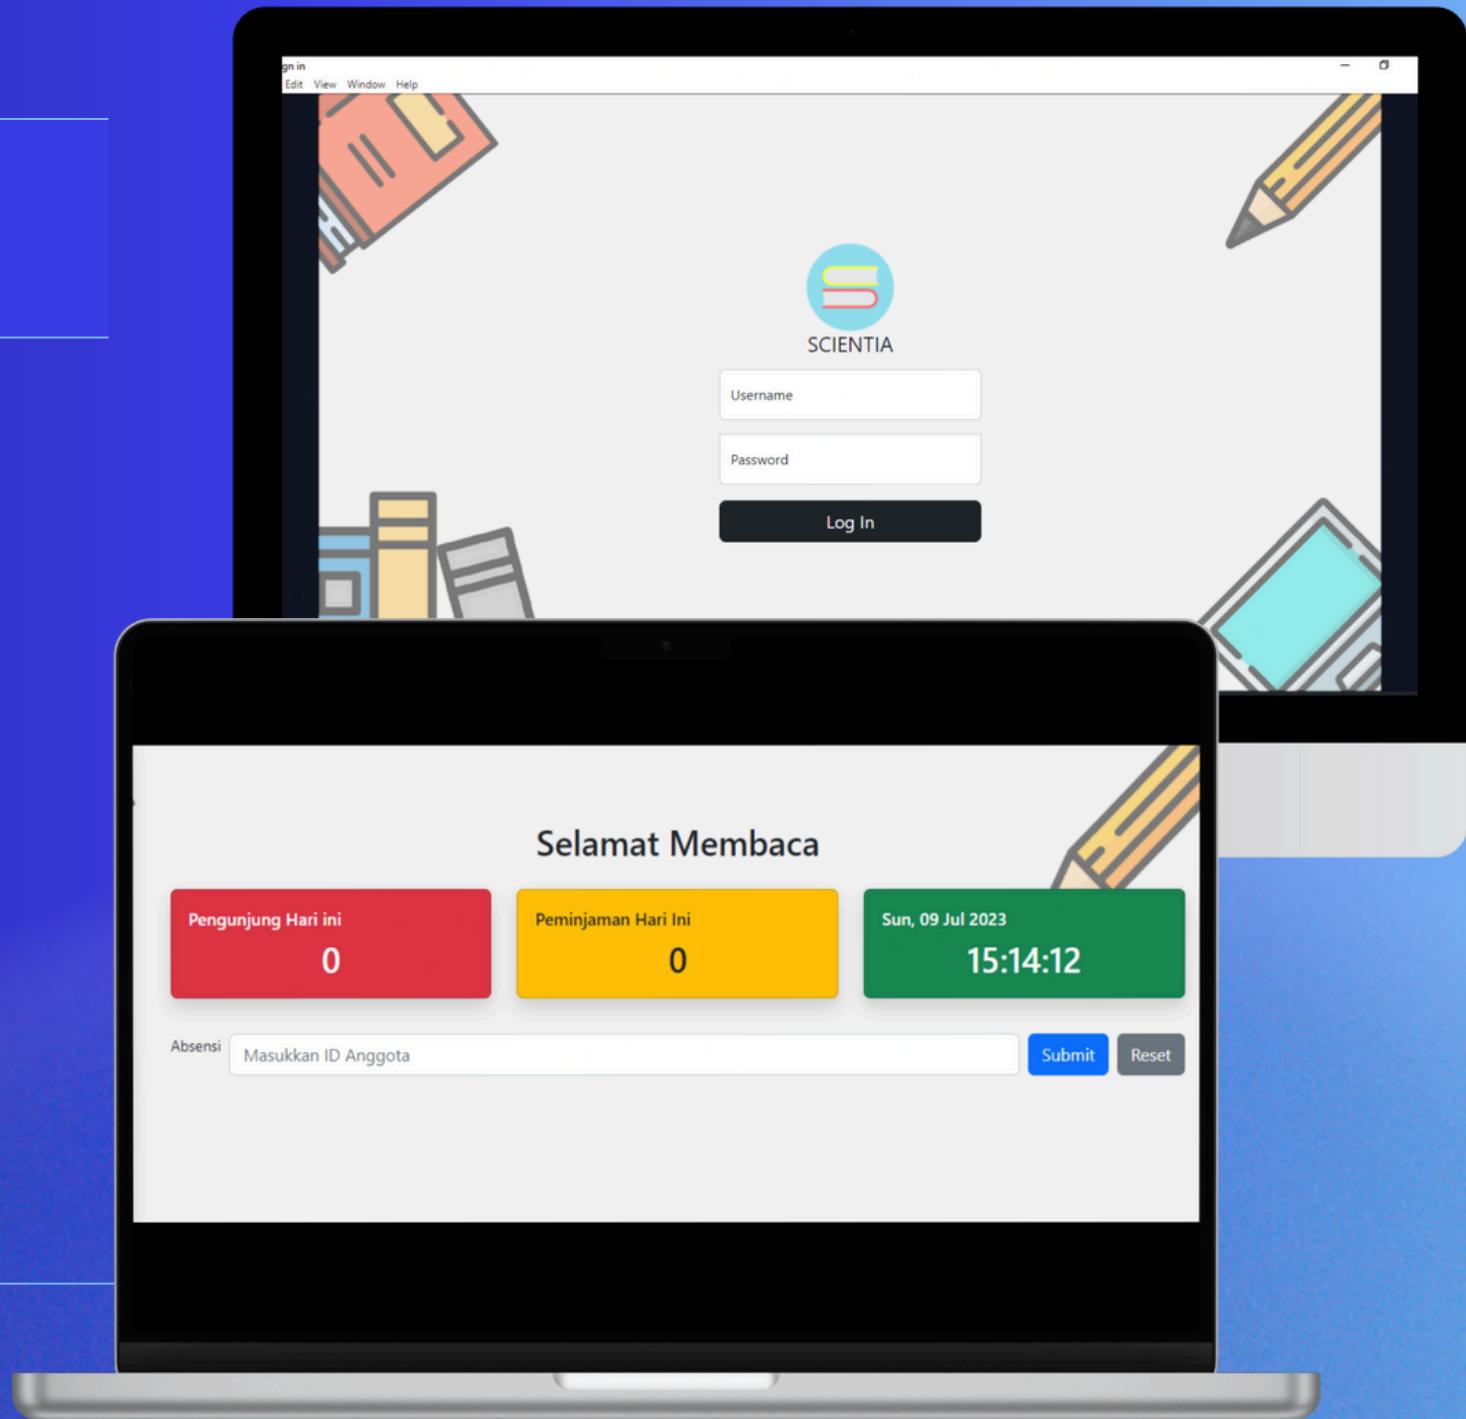

PHP

Scientia

Created: February 2023

This project is a desktop application for managing a campus library, built using PHP and Electron.js. The application provides functionalities for managing books, members, and borrowing transactions.

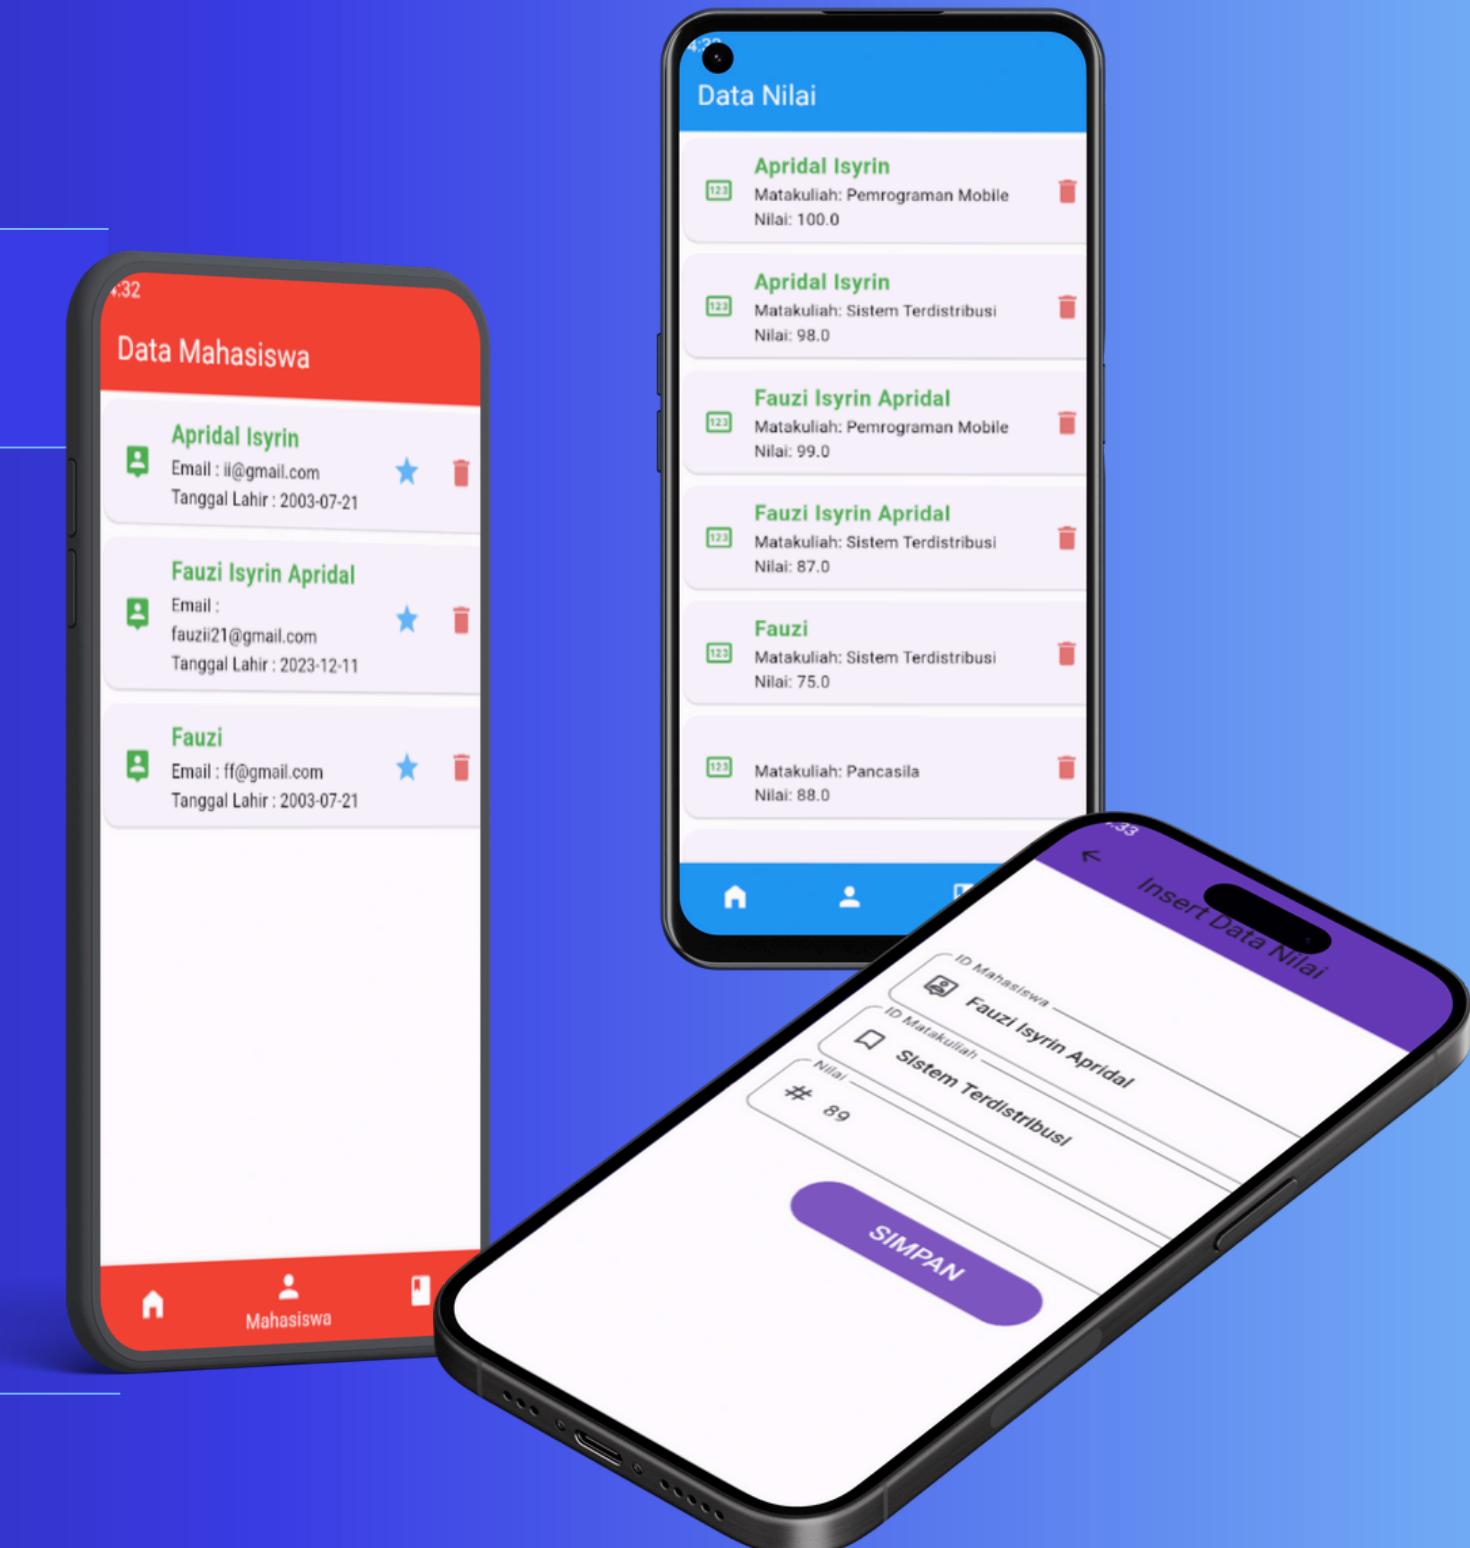

Mahasiswa Service App

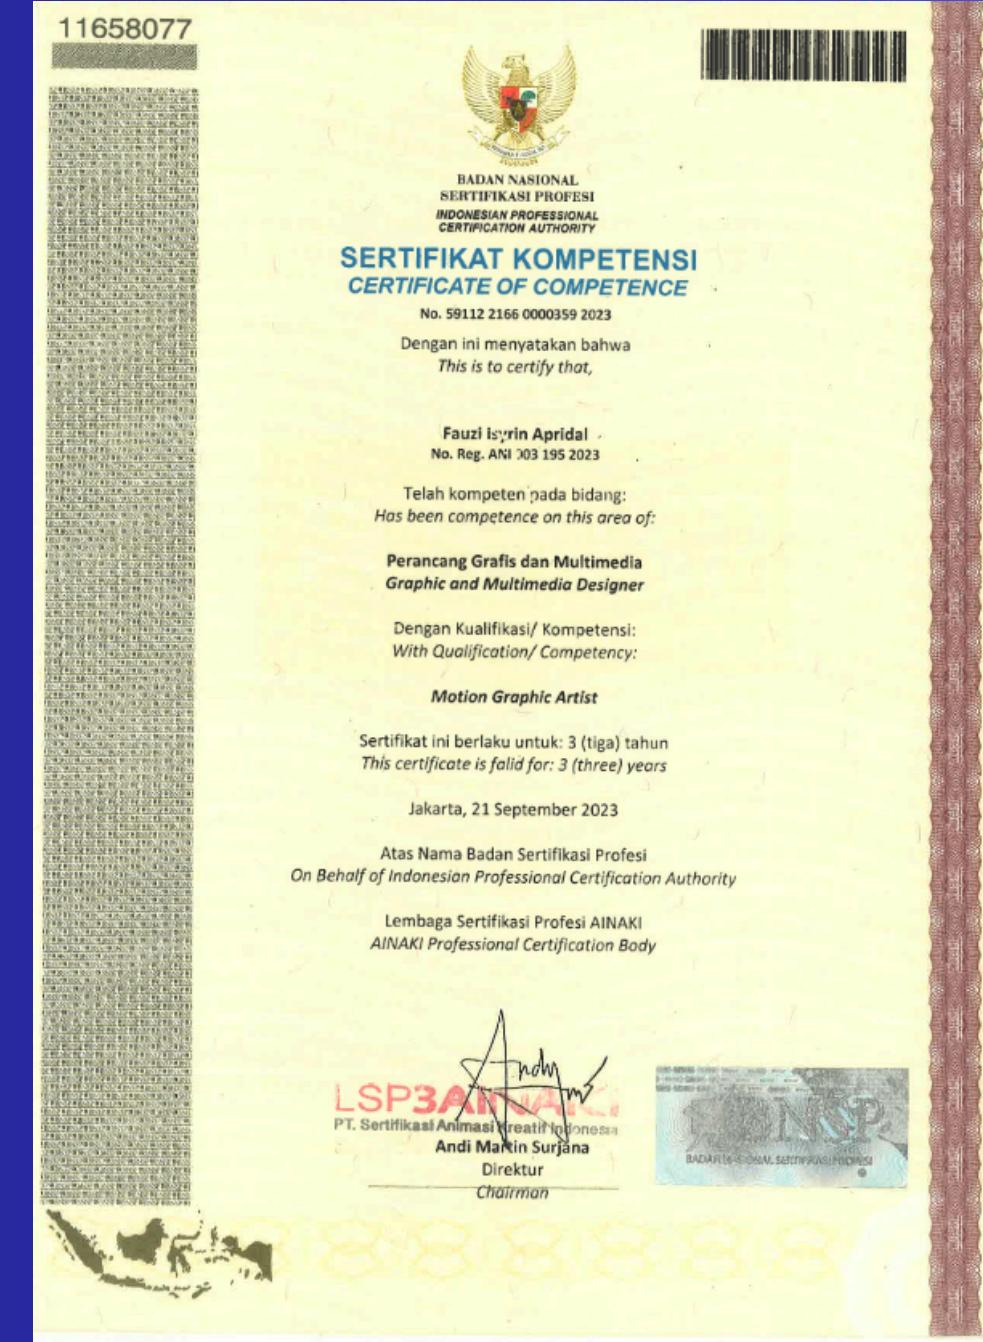

Created: November 2023

A simple mobile application developed with Flutter and backed by a Java Spring service, designed to effortlessly showcase comprehensive student information including academic data such as grades, courses, and student details.

Motion Graphic Artist Certificate

from Kominfo & AINAKI (Asosiasi Industri Animasi Indonesia)
